

Google Chrome users

Run the map in your computer require create a local host, there are plenty tools on internet for that purpose, our favorite one is Microsoft Visual Studio.

Please follow the next steps:

- 1- Open the file "ZeldaLightWorld.zip and unzip the files in your computer.
- 2- Open the Microsoft Visual Studio and click "File" and then "Open -> Web Site".

- 3- Select the folder "ZeldaLightWorld".
- 4- Now double click the "ZeldaLightWorld.htm" file and press the button "Play".
